JOHN RAVEN UNERA

Metro Manila, Philippines | unerajohnraven@gmail.com | 09082960796 | linkedin.com/in/john-raven-unera-728736356

EDUCATION

Technological Institute of the Philippines – Manila
Bachelor of Science in Information Technology | Expected 2028 | Dean's Lister, S.Y. 2024–2025
GDG-PLM x DataCamp Scholar (1 of 100 selected) | Jan 2026 – 2027

EXPERIENCE

AI/ML Lead – AWS Student Builder Group, TIP Manila
Jul 2026 – Present

- Lead AI/ML workshops and initiatives for the chapter, covering AWS Lambda, API Gateway, and serverless application design.
- Represent the chapter at AWS-hosted sessions (Arthaland, BGC) on design-to-code workflows using Figma, Kiro, and MCP integrations.

AI Intern – FlyRank AI (Remote)
Jun 2026 – Present | Taguig, NCR, Philippines

- Support General AI Fluency initiatives, applying AI/ML concepts to production workflows.

League of Recognized Student Organizations Representative – CADS, TIP Manila
Jul 2026 – Present

- Represent the Collaborative Analytics and Data Science Society in cross-org coordination and communications.

President, League of Officers – Saint Francis of Assisi College, Taguig Campus
May 2023 – May 2024

- Led all student organizations campus-wide; managed events and seminars as liaison between students and administration.

HACKATHON & TECHNICAL PROJECTS

Bumi Pulse – AI Ready ASEAN Youth Challenge 2026 (AI Singapore) – Top 10 Finalist, PH

- Engineered an agricultural AI platform supporting regional food security and agricultural resilience across ASEAN, built with Python and AI/ML frameworks.
- Designed a proprietary multimodal Fusion Engine (Layer C) to dynamically process and integrate environmental telemetry and satellite data streams.

HYDRA – HackTheFlood 2025 – Impactful Solution Award

- Co-developed an anti-corruption intelligence and climate-risk platform using Python, full-stack frameworks, and geospatial imaging surveillance.
- Built an end-to-end encrypted whistleblower submission dropbox backed by AI-driven evidence verification models.

CITYWISE – Startup QC Squad 3 (Quezon City LGU) – Squad 3 Mentorship Finalist

- Engineered a scalable full-stack urban management super-app (React, Node.js, SQL) for municipal data optimization and civic resource management.
- Incorporated predictive analytics models to streamline local government unit operations.

Project FORGE – Project Manager, Lead Pitcher & Full-Stack Developer

- Led an AI-powered laboratory asset management and equipment identification system delivered for an academic course defense.
- Deployed on enterprise AWS architecture (CloudFront, Elastic Load Balancing, Amplify, Aurora RDS/PostgreSQL, IAM); pivoted the computer vision workflow from video scanning to point-and-shoot photo capture for improved accuracy.

Also competed in: CS3C – Hack4Gov 2025 NCR Regional (7th/20 teams); International Battle of Hackers 2025 (17th/42, Int'l Category); Agora Voice AI Hackathon 2026.

TECHNICAL SKILLS

Cloud & AWS: Elastic Beanstalk, CloudFront, Elastic Load Balancing, Amplify, Bedrock, IAM, Aurora RDS (PostgreSQL)
Languages & Frameworks: Python, JavaScript, Node.js, React, SQL, Oracle 19c, REST APIs
Practices & Domains: DevOps, CI/CD, System Architecture, AI/ML, OSINT & CTF Methodologies

CERTIFICATIONS

Google AI Professional Certificate – Google (Jun 2026); AWS Educate – Introduction to Cloud 101; EF SET English Certificate – 71/100, C2 Proficient (Apr 2025)

HONORS & AWARDS

Top 10 Finish, AI Ready ASEAN Youth Challenge 2026 (AI Singapore) | Champion, TIP Manila Debate Competition 2026 | 2nd Placer, IT Summit 2025 Quiz Bee | Dean's Lister, 1st & 2nd Sem S.Y. 2024–2025 | DTI-GCC Scholar | Taguig Scholar
